shops

In 2019, the Nord department of France chose to entrust the Le Val Joly territory to Vert Marine. The company with over 2000 employees will be managing the resort for the next 10 years.

“Today, Vert Marine is the recognized leader in the delegated management of sports facilities...”

— Thierry Chaix, Founding President of Vert Marine

A set of ST-01 speed gates with swing panels of standard and extended width was installed at the entrance of "L'Aquatica" aquatic center.

Speed gates are equipped with FR-01 Q front panels with a barcode scanner installation possibility for better integration with resort's ticketing system.

Guests use barcodes to enter the building, and the button with indication to exit the area.
